PoE, Unmanaged switch: LN-NM-24P-P

Product Description

LN-NM-24P-P is a 24-ports 10/100/1000Mbps unmanaged Ethernet switch that provides seamless network connection. Providing 24x 10/100/1000Mbps RJ45 ports, supporting all port wire-speed forwarding, and each port has MDI/MDIX cross detection function. Using store and forward technology, combined with dynamic memory allocation, to ensure the effective allocation of bandwidth to each port. It supports multi-mode operation and can meet various requirements of the operation environment. Built-in high reliability and wide voltage input design power supply can ensure the normal operation of the equipment even if the grid voltage is unstable.

LN-NM-24P-P is easy to use without configuration, plug and play.

Features

- Comply with IEEE802.3, IEEE802.1q standards
- Support 24 x10/100/1000Mbps Auto MDI/MDIX
- Supports IEEE802.3x flow control for Full-duplex Mode and backpressure for Half-duplex Mode
- 8K entry MAC address table of the switch with auto-learning and auto-aging
- Support multi-mode operation
- LED indicators for monitoring port Link/Activity
- 19 inches full metal iron shell and internal power adapter design, suitable for rack installation
